

# 24" MULTI-SURFACE CONTRACTOR GRADE PUSH BROOM

#1503

## Product Usage

A multi-surface push broom with a fiberglass handle for heavy-duty, industrial and contractor use. Cleans any surface, such as concrete, brick, wood, stone, asphalt, and more. Firm, flexible polymer fibers designed to clean most surface types without damaging the surface.

## #1503 Multi-Surface Contractor Grade Push Broom

- The durable 1.25" thick fiberglass octagonal shaped handle is over 3 times stronger than steel handles.
- 4" long broom fibers made of recycled PET bottles are staple-set to a molded block.
- To resist flexing and deflection when sweeping heavy debris, polypropylene brackets have been added and secured to the block with easy-to-adjust and tighten bolts. These bolts also make it easier for you to flip the broom head and even out bristle wear.
- Handle features a molded grip for ergonomic use and a hanger tip for convenient storage.
