

#1883 LARGE PRECISION ANGLE® BROOM WITH STEP 'N STAND DUSTPAN

A patented angle style broom and dust pan with hair and dust removal teeth and a step-on handle to minimize bending over.

Product Features:

NEW!

Electrostatic powder coated steel handle with LLDPE molded hanger tip.

Solid polypropylene 8.5" long molded broom block.

13.5" wide polypropylene resin molded dustpan with 1.25" teeth.

2 contrasting color bands of recycled PET polymer, 6" long fibers.

Consumer Benefits:

- All-Surface fibers remove over 99% of dust, dirt and hair in one sweep.
- Flagged, split-tip fibers collect fine dirt & dust.
- Indoor and outdoor use.
- Dust and hair won't cling to thick and strong, anti-static dust pan.
- Elongated handle to step on for greater stability.

"I've owned many brooms and now I will only buy the angled ones. They are so much easier to get in the corners of the ceiling or the floor (cobwebs) and they get under the counters and furniture."
-CazieLyn

Rigid plastic teeth to easily remove dust and hair from broom fibers.
