A close-up photograph of a person's hand holding a green and white Libman toilet brush. The brush is being used to scrub the inside of a white toilet bowl. The brush has a green handle with the 'LIBMAN' brand name and a circular head with many green bristles. In the background, a white toilet seat and a white container are visible.

Stiff, recycled PET bristles are better for scrubbing and hold their shape longer than other materials.

TRASH CANS

Product Usage

Works great at any facility for trash, recycling, storage, and more. Fits all standard wheel dollies and maid carts that fit 32 gallon trash cans – perfect for on-the-go. Available in multiple colors to fit any end use need/facility color coding program. Built to hold super heavy materials without the handles warping and bending.

- Base handle grips conveniently located on the side of the base to easily lift and empty without having to touch the dirty bottom of the can.
- Vented channels on the inner sides – trash bags pull out easily and don't get suctioned down into the can.
- Bag tie cinches on the handles for knot-free liner changes.
- Fits standard wheel dollies.
- Heavy-duty reinforced handles will not bend and warp under extreme weights.
- Strong durable HDPE material will not bend/warp and resists cracking in colder temperatures.
- Rounded ergonomic handles don't cut into hands.
- Rounded snap-on lid adds more capacity.
- Thicker plastic on base to withstand rougher surfaces and dragging for an extended life.
- All cans and lids are shipped in quantities of 6.

130 YEARS OF QUALITY.

Robert (left) and Bill on the shop floor in the mid-1960s.

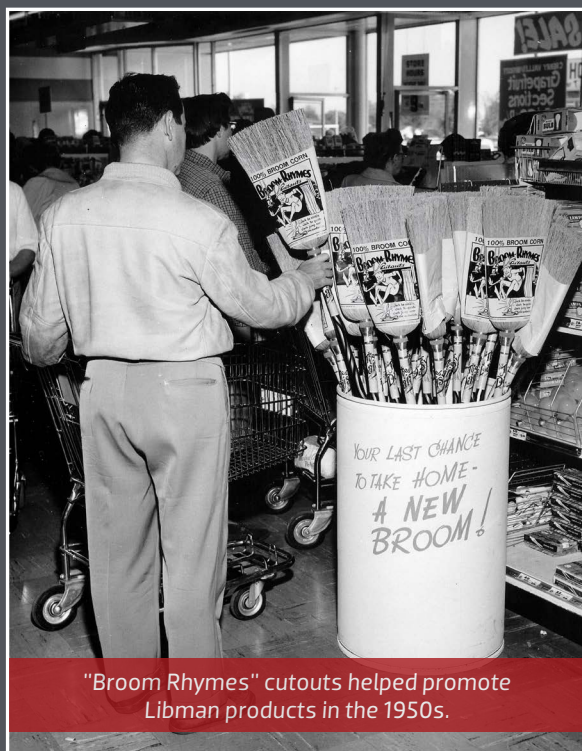

THE MORE THINGS CHANGE...

Since 1896, The Libman Company has represented more than just cleaning products. We have stood for craftsmanship, tradition, and family values. For 130 years, our mission has remained the same: to create the highest-quality, American-made products that customers can depend on every day.

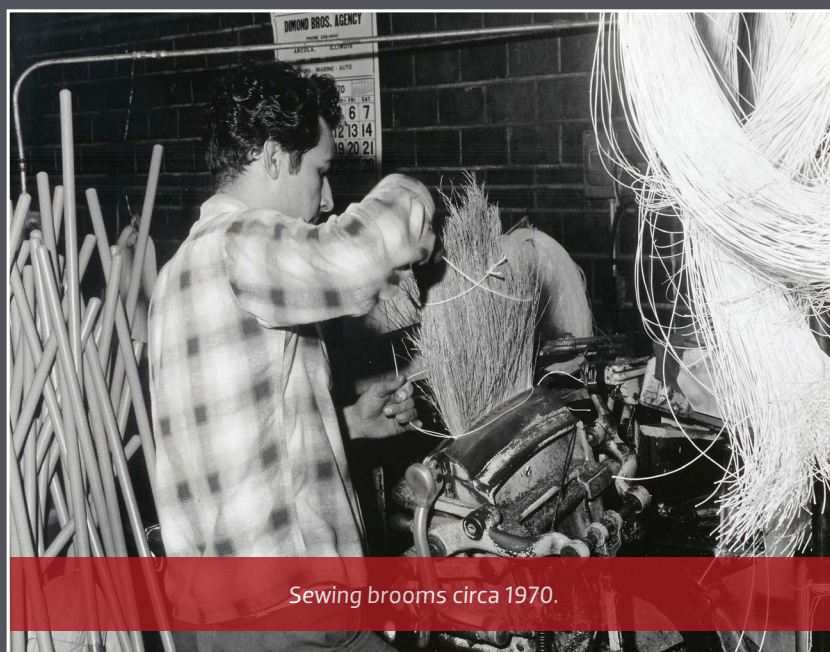

From our very first broom to today's innovative cleaning solutions, we've stayed true to our roots, proudly manufacturing in the USA and exceeding industry standards with each product we make.

...THE MORE WE'VE GROWN WITH THEM

Across generations, our dedication to quality has never wavered. As the cleaning needs of America have evolved, so has our product line, without compromising the standards that built our reputation. This commitment has allowed us to weather economic challenges and global events, remaining a trusted source for cleaning products for over a century.

"Broom Rhymes" cutouts helped promote Libman products in the 1950s.

Sewing brooms circa 1970.

130 YEARS OF TRUST.

During World War II, The Libman Company joined the effort with wartime production. From 1942 to 1945, we produced over 2,500 brooms a day for the War Department.

20TH CENTURY GROWTH

Even during the Great Depression, Libman thrived, expanding operations when many companies were forced to contract. Through the 1950s, 60s, and 70s, we continued to refine and broaden our line of brooms, mops, brushes, and other essential cleaning tools.

In the 1980s, we began vertically integrating our manufacturing to ensure complete control over quality. By the late 1990s, we launched Libman Commercial, laying the foundation for the continued growth in the decades to follow.

CONTINUING THE LEGACY

Today, the Libman family proudly carries forward its tradition of quality and exceptional customer service. We remain committed to serving our loyal customers while expanding into new markets across the U.S. and around the world. As needs evolve, we will continue to adapt and grow, guided by the same principles that have defined us for the past 130 years.
